LOVE, SEX AND LASTING RELATIONSHIPS NightGlass Produces DVD Curriculum for Walk Thru the Bible

ATLANTA, Georgia. – November 15, 2004 – Walk Thru the Bible Media Producers Dave Ball and Rebecca Gregory teamed up with the NightGlass Media Group on the production, post-production and DVD design/authoring of a new singles-focused teaching curriculum, entitled Love, Sex and Lasting Relationships.

The project was shot over a six-week period at 722, a singles ministry at North Point Community Church in Alpharetta, Georgia. Walk Thru the Bible President Chip Ingram incorporated his book, Love Sex and Lasting relationships into six evenings of teaching to crowds of over 3,000 people each night.

Matt Gore supervised the entire project for NightGlass and directed the production. “North Point has a great facility and control room which really made for smooth sailing. It was a four-camera shoot, we rented decks and recorded each camera feed for iso shots and of course recorded the live switch. Post and lower third supers were done in Final Cut HD and then I handed the project over to our Media Designer, Sorapin Pintosopon. The final kit turned out to be ten different segments that fit nicely on three DVDs. Sorapin did an incredible job with the menu interface, authoring and label design.”

“We couldn’t be happier with the process and the final product,” said Dave Ball. “Matt and his team exceeded our expectations and then some. We believe that this curriculum is relevant for today and will strike a nerve.”
